

PHE

* For Grade 6-8, each set of homework should take an average of 30 minutes to complete. This means that students spend 1.5 hours per evening on homework.

* Homework is done on the day stated in the schedule below, not necessarily on the day it is given.

* The Arabic and English departments will also be setting weekly goals and activities for reading, vocabulary and typing in English.

Students are expected to achieve these goals by the end of the week. **This is in addition to the weekly homework included in the schedule.**
